## KEY MODULES

### FRONT DESK MANAGEMENT

EduERP streamlines all the front desk activities, roots out existing errors in the system and coordinates them efficiently through following modules.

**ADMISSION MANAGEMENT:** An end -to-end admission module which takes care of complete registration system, forms issued/submitted, student enrollment details, issues important documents, letter of grants and scholarships to students.

**FEES MANAGEMENT:** A simple module to trace details of fees, calculation of deductions and pending fees, late charges and other fee charges.

**INQUIRIES MANAGEMENT:** Manages each enquiry diligently and provides accurate information to prospective students.

## CAMPUS MANAGEMENT

EduERP contains modules which lend a helping hand in complete campus management creating a comfortable environment in the Institute.

**LIBRARY MANAGEMENT:** Gives comprehensive view of library data like available books, books in circulation, details of student to whom book has been issued.

**HOSTEL MANAGEMENT:** Web enabled Hostel module aids in efficient management of student accommodation, allocation of rooms, fees, total students, vacant rooms, etc.

**CANTEEN / CAFETERIA MANAGEMENT:** POS enabled Canteen module facilitates bill generation, reports of meals and items sold, pending dues, inventory etc.

**CLASSROOM MANAGEMENT:** Maintains total supplies of books, writing equipments, projectors along with monitoring of sitting arrangements, other essential facilities.

**LABORATORY MANAGEMENT:** Presents total essentials of laboratory equipments, machines, testing instrument, experiment tools allowing seamless management of laboratory.

## STUDENT MANAGEMENT

EduERP eases student management process by automating it so that administrators can access, update and use information of any student through following modules.

**ATTENDANCE MANAGEMENT:** A reliable system integrated with Access Card and Biometrics helps in effective tracking of student and staff attendance, and scrutinizes absentees on a particular day.

**BATCHES & COURSE MANAGEMENT:** Empowers management to map student batches based on courses, design curriculum, depict subject wise tutors allocation.

**TIMETABLE MANAGEMENT:** Generates timetable considering class wise subject and teacher setting, availability of substitute teachers, etc.

**EXAMINATION MANAGEMENT:** Manages and conducts examination through robust features like examination schedule, seat allotment, question paper generation, marks evaluation, result generation, feedback to parents / student etc.

**DISCIPLINARY ACTIONS:** Briefs and guides students about rules and regulations, punishment in case of breach of laws and maintains records of offences of students, if any.

**PLACEMENT & ALUMINI:** Facilitates student placement through on-campus recruitment, provides up-to-date information on companies ,packages offered, maintains candidates' resumes and schedules interviews, plans and organizes Alumni meetings.

## ADMINISTRATION MANAGEMENT

EduERP renders cutting edge solution for carrying out better administration of school with the help of the following modules.

**CONVEYANCE MANAGEMENT:** Manages students and staff transportation by portraying trivia of routes, pickup points, trip schedules, details of fuel consumption as well as information about driver and vehicles.

**ALERTS & COMMUNICATION:** Endows interactive interface that enhances communication among staff and parents in providing ample information through SMSs, email, newsletters, internal messaging system, articles on website, photo gallery, notice board, etc.

**EVENTS & ACTIVITIES:** This module undertakes entire management of events starting from list of required material during events to illustrating class-wise details of participants, performances along with describing particulars of invitees and judges.

**PAYROLL MANAGEMENT:** Eases payroll processing by conveying facts about attendance, leaves and other details of staff and teachers thereby reducing time spent towards management of staff.

**USER MANAGEMENT:** This module creates Individual login of authorized personnel with access rights to manage complex campus operations and resources in smooth manner.
